

Captaincy and Decisions Technique Observation Worksheet - Plan a Match Scenario

Captaincy and Decisions | Plan a Match Scenario | Asset ID CRIC-22-03-08

Purpose: This original printable technique observation worksheet helps players, coaches, clubs, schools and families work with captaincy and decisions while pursuing one defined outcome: turn scoreboard and resources into a bounded tactical plan. Its method is to watch from a safe position, note one cue and compare repeated attempts. Use the pages as a working record, not as a substitute for current competition rules, safe facilities, suitable equipment and qualified coaching or health guidance where those are needed.

Resource Map

The subject focus is to make transparent choices using conditions, resources and current match information. The six working areas below define the scope for this specific resource. Complete only the rows that matter to the present practice block, and date any observation that may change.

#	Working area	Current evidence	Next check
1	Toss Factors	Known / estimated / not checked	_____
2	Bowling Change	Known / estimated / not checked	_____
3	Field Change	Known / estimated / not checked	_____
4	Matchup Evidence	Known / estimated / not checked	_____
5	Communication	Known / estimated / not checked	_____
6	Review Point	Known / estimated / not checked	_____

Scenario and Facilitation Starting Brief

- Frame: Which evidence separates review point from toss factors in this case? Frame a bounded scenario with a clear success measure.
- Assign: How does bowling change change the interpretation of field change? Assign roles, resources and stop conditions.
- Run: What boundary on matchup evidence must be checked before relying on communication? Run the scenario without adding hidden rules.
- Capture: Which observation links toss factors to matchup evidence, and what remains uncertain? Capture decisions, timing and exceptions.
- Debrief: What alternative explanation could account for both field change and review point? Debrief actions with evidence and balanced participation.
- Edition success means: run and review the scenario with a reason for each adjustment

Technique Observation Worksheet

This format is designed to help a player or coach describe movement without vague labels. For captaincy and decisions, apply the method in a deliberate sequence: watch from a safe position, note one cue and compare repeated attempts. The edition target is plan a match scenario, so each entry should show what was noticed, what was tried and what changed.

Working step	What to record	Evidence or source	Status
Frame Review Point	Which evidence separates review point from toss factors in this case?	Scenario brief / date	Open / checked
Assign Toss Factors	How does bowling change change the interpretation of field change?	Role map / date	Open / checked
Run Bowling Change	What boundary on matchup evidence must be checked before relying on communication?	Scenario run / date	Open / checked
Capture Field Change	Which observation links toss factors to matchup evidence, and what remains uncertain?	Event record / date	Open / checked
Debrief Matchup Evidence	What alternative explanation could account for both field change and review point?	Debrief / date	Open / checked
Transfer Communication	What next check on communication would make the record about bowling change more useful?	Transfer plan / date	Open / checked

Completion Standard

- Keep the work tied to captaincy and decisions, not to a vague general intention.
- Apply this adjustment: define the situation, roles, field and success measure
- Which decision from the scenario should change the next real attempt?
- Expose this outcome risk if it appears: the debrief becomes blame.
- Use original notes and explanations; quote only when necessary, lawful and properly attributed.
- Ask a qualified coach, safeguarding lead or health professional to challenge one material assumption where appropriate.
- Close with one decision and one follow-up rather than an unranked list of ideas.

Working Note

Edition CRIC-22-03-08 pairs technique observation worksheet with the outcome 'Plan a Match Scenario'. That pairing is the boundary for this workbook: material that does not help that outcome belongs in a separate record.

Guided Session x Scenario and Facilitation Focused Practice Lab

This lab pairs a guided session method with a scenario and facilitation outcome lens. Work through the six actions to turn the subject focus - make transparent choices using conditions, resources and current match information - into evidence for plan a match scenario. Preserve any gap that prevents a supported conclusion.

#	Action	Constraint	Record
1	Frame / Frame field change	Which evidence separates review point from toss factors in this case? Frame a bounded scenario with a clear success measure.	Readiness / Scenario brief
2	Prompt / Assign matchup evidence	How does bowling change change the interpretation of field change? Assign roles, resources and stop conditions.	Brief / Role map
3	Observe / Run communication	What boundary on matchup evidence must be checked before relying on communication? Run the scenario without adding hidden rules.	Observation / Scenario run
4	Listen / Capture review point	Which observation links toss factors to matchup evidence, and what remains uncertain? Capture decisions, timing and exceptions.	Response / Event record
5	Summarise / Debrief toss factors	What alternative explanation could account for both field change and review point? Debrief actions with evidence and balanced participation.	Access check / Debrief
6	Close / Transfer bowling change	What next check on communication would make the record about bowling change more useful? Transfer the learning into the next owned action.	Close / Transfer plan

Common Failure Modes

- For field change, watch for a participant misunderstands the task together with the scenario lacks a boundary.
- For matchup evidence, watch for the first observation is incomplete together with roles or stop conditions are unclear.
- For communication, watch for one voice dominates together with hidden rules appear during the run.
- For review point, watch for comfort or access changes together with only the final result is captured.
- For toss factors, watch for feedback conflicts together with the debrief becomes blame.

Independent Review Question

Format question: What changed between the first observation and the considered response? Outcome question: Which decision from the scenario should change the next real attempt? Ask a qualified coach, safeguarding lead or health professional where appropriate, then answer before the next practice block: _____

Cricket Practice Plan for Plan a Match Scenario

Use one defined practice block to test the outcome rather than attempting every possible task. This edition pairs guided session with scenario and facilitation to pursue this objective: turn scoreboard and resources into a bounded tactical plan. Preserve the starting condition and both evidence trails.

Plan field	Entry
Purpose	Plan a Match Scenario
Starting condition	_____
Chosen working area	_____
Event record	define the situation, roles, field and success measure
Evidence to capture	_____
Stop or review condition	_____

Thirty Minute Practice Shape

Stage	Action	Evidence
0-5 min	Which evidence separates review point from toss factors in this case? Prepare the setting and participants.	Readiness / Scenario brief
5-10 min	How does bowling change change the interpretation of field change? Explain the focus and response method.	Brief / Role map
10-18 min	What boundary on matchup evidence must be checked before relying on communication? Run a first observation without interruption.	Observation / Scenario run
18-24 min	Which observation links toss factors to matchup evidence, and what remains uncertain? Invite and record a considered response.	Response / Event record
24-27 min	What alternative explanation could account for both field change and review point? Check comfort, access and understanding.	Access check / Debrief
27-30 min	What next check on communication would make the record about bowling change more useful? Summarise learning and follow-up.	Close / Transfer plan

Guided Observation Log

Guided Observation	Condition	Observation	Decision
1	Same / changed	_____	Keep / change / check
2	Same / changed	_____	Keep / change / check
3	Same / changed	_____	Keep / change / check
4	Same / changed	_____	Keep / change / check
5	Same / changed	_____	Keep / change / check

Observation and Response Review - Scenario and Facilitation Lens

This comparison tests captaincy and decisions against plan a match scenario through two independent questions. Format: What changed between the first observation and the considered response? Outcome: Which decision from the scenario should change the next real attempt? Record material setting differences instead of averaging them away.

Evidence area	Baseline	Alternative	Interpretation prompt
Matchup Evidence	_____	_____	Which evidence separates review point from toss factors in this case?
Communication	_____	_____	How does bowling change change the interpretation of field change?
Review Point	_____	_____	What boundary on matchup evidence must be checked before relying on communication?
Toss Factors	_____	_____	Which observation links toss factors to matchup evidence, and what remains uncertain?
Bowling Change	_____	_____	What alternative explanation could account for both field change and review point?
Field Change	_____	_____	What next check on communication would make the record about bowling change more useful?

Format Decision Test

Field	Record
Review question	What changed between the first observation and the considered response?
Outcome question	Which decision from the scenario should change the next real attempt?
Acceptance lens	run and review the scenario with a reason for each adjustment
Conditions held steady	_____
Evidence supporting the choice	_____
Evidence against the choice	_____

Guided Session Confidence Check

- Scenario brief: what was actually seen, heard, measured or read?
- Format evidence: which record best demonstrates responses captured?
- Outcome evidence: which record best demonstrates debriefs evidenced?
- Challenge: could only the final result is captured explain the result?
- Subject boundary: what does this comparison leave unresolved about review point?

Guided Session x Scenario and Facilitation Scenario Cards

Use these paired scenarios to rehearse judgement for plan a match scenario. Each card joins a guided session failure mode to an outcome-specific risk. State what remains open and which evidence named in the final column should be collected next.

#	Situation	Review question	Decision
1	Review Point: one voice dominates.	Which evidence separates review point from toss factors in this case?	Scenario brief
2	Toss Factors: comfort or access changes.	How does bowling change change the interpretation of field change?	Role map
3	Bowling Change: feedback conflicts.	What boundary on matchup evidence must be checked before relying on communication?	Scenario run
4	Field Change: the close-out is rushed.	Which observation links toss factors to matchup evidence, and what remains uncertain?	Event record
5	Matchup Evidence: a participant misunderstands the task.	What alternative explanation could account for both field change and review point?	Debrief
6	Communication: the first observation is incomplete.	What next check on communication would make the record about bowling change more useful?	Transfer plan

Decision Record

Field	Notes
Chosen format scenario	_____
Outcome lens	Which decision from the scenario should change the next real attempt?
Evidence available	_____
Evidence missing	_____
Controlled next step	_____
Person / review date	_____

Eight Guided Session and Scenario and Facilitation Evidence Tracker

Track plan a match scenario across eight practice blocks using the guided session method and the scenario and facilitation outcome lens. Keep conditions visible and use this review question: Which decision from the scenario should change the next real attempt?

#	Focus	Condition	Result	Next action
1	Communication	_____	_____	_____
2	Review Point	_____	_____	_____
3	Toss Factors	_____	_____	_____
4	Bowling Change	_____	_____	_____
5	Field Change	_____	_____	_____
6	Matchup Evidence	_____	_____	_____
7	Communication	_____	_____	_____
8	Review Point	_____	_____	_____

Guided Session Evidence Dashboard

Measure	Baseline	Current	Evidence location
Toss Factors: Participants Briefed / Scenarios Framed	_____	_____	_____
Bowling Change: Observations Recorded / Roles Assigned	_____	_____	_____
Field Change: Responses Captured / Runs Completed	_____	_____	_____
Matchup Evidence: Access Checks Completed / Events Captured	_____	_____	_____
Communication: Misunderstandings Resolved / Debriefs Evidenced	_____	_____	_____
Review Point: Follow-Ups Assigned / Learning Transferred	_____	_____	_____

Interpret the Trend

- I kept the scenario rules and success measure visible throughout the run.
- I converted the debrief into a specific action with an owner.
- Keep the method only when the evidence for plan a match scenario improves without hiding only the final result is captured.
- What boundary on matchup evidence must be checked before relying on communication?
- Use a qualified coach, safeguarding lead or health professional when the evidence crosses a safety, rights, health or authority boundary.

Guided Session x Scenario and Facilitation Next Step Plan

Finish by turning the paired format and outcome record into one owned action. For this technique observation worksheet, the intended result was plan a match scenario; the outcome test is: Which decision from the scenario should change the next real attempt? The close-out standard remains: run and review the scenario with a reason for each adjustment.

Close-out field	Record
Most useful evidence	_____
Important limitation	_____
Decision	Keep / adapt / pause / seek review
Next action	_____
Owner and date	_____
Evidence location	_____

Completion Review

- Subject check: Which evidence separates review point from toss factors in this case?
- Subject check: How does bowling change change the interpretation of field change?
- Format check: I gave the participant enough time and a clear way to respond.
- Outcome check: I kept the scenario rules and success measure visible throughout the run.
- I used a progressive warm-up and did not ignore pain, unsafe surfaces, heat or fatigue.
- I kept the drill generic and did not imply affiliation with a player, team, league or governing body.

Originality and Responsible Use

Original independent resource. This general practice, observation and review aid was written specifically for asset CRIC-22-03-08. It does not reproduce a book passage, manual, official form, commercial question bank, branded training plan, broadcast, photograph, logo, artwork, map, proprietary diagram or third-party worksheet. Any user-added quotation, image, question or source material remains the user's responsibility and may require attribution or permission.

Educational use only. Verify current facts, rules, competition requirements, local regulations, health and safety conditions with authoritative sources and a suitably qualified person where consequences matter. This workbook does not grant approval, certification, legal rights or permission to use third-party material.
