## Character and Structure Tracker

This format is designed to trace change across a sequence rather than judging one moment. For fiction reading, apply the method in a deliberate sequence: record starting state, pressure, choice, consequence and later state. The edition target is write an original response, so each entry should show what was noticed, what was tried and what changed.

| Working step | What to record | Evidence or source | Status |
|---|---|---|---|
| Specify Patterns And Motifs | Which evidence separates patterns and motifs from ending response in this case? | Use brief / date | Open / checked |
| Clear Ending Response | How does narrator and viewpoint change the interpretation of character aims? | Clearance / date | Open / checked |
| Create Narrator And Viewpoint | What boundary on turning points must be checked before relying on cause and effect? | Original output / date | Open / checked |
| Challenge Character Aims | Which observation links ending response to turning points, and what remains uncertain? | Independent review / date | Open / checked |
| Correct Turning Points | What alternative explanation could account for both character aims and patterns and motifs? | Correction record / date | Open / checked |
| Release Cause And Effect | What next check on cause and effect would make the record about narrator and viewpoint more useful? | Release record / date | Open / checked |

### Completion Standard

- Keep the work tied to fiction reading, not to a vague general intention.
- Apply this adjustment: paraphrase, cite minimal necessary evidence and develop a distinct idea
- Is the output original, traceable and suitable for its stated use?
- Expose this outcome risk if it appears: the work imitates a source.
- Use original notes and explanations; quote only when necessary, lawful and properly attributed.
- Ask a reader, educator, librarian, editor or rights adviser to challenge one material assumption where appropriate.
- Close with one decision and one follow-up rather than an unranked list of ideas.

### Working Note

Edition BOOK-02-07-09 pairs character and structure tracker with the outcome 'Write an Original Response'. That pairing is the boundary for this workbook: material that does not help that outcome belongs in a separate record.
